

Keeping You, Your Animal and the Public Healthy at Animal Events Replication

- **Take pre-test**
- **Animal Event Petting Scenario**
 - **Needs:**
 - **Minimum 3 stuffed animals**
 - **Black light**
 - **Glow germ powder/lotion**
 - **Piece of rubber meat (for additional event)**
 - **Soap and running water (for additional event)**
 - **Set up stuffed animals contaminating at least one with the glow germ powder**
 - **Set up black light**
 - **Have participants pet all animals**
 - **Have participants check hands with the black light to see if contaminated**
 - **Check animals with black light to show how germs are spread from animal to animal**
 - **Additional event: Pass a rubber piece of meat around to show how germs passed on food by not washing hands**
 - **Additional event: Have participants wash their hands after viewing germs to see how well they washed their hands**
 - **Talk about zoonosis and disease pathogens**
- **Show PowerPoint “Keeping you, your animal and the public healthy at animal events”**
- **Review key points and encourage those that participated to share their knowledge with others, especially the public**
- **Take post-test**
- **Follow up with adult animal volunteers and animal show officials to see how they changed their practices**
- **Continuing encouraging youth to be proactive and educate the public about hand washing, etc.**
