

Please Join us for a Free Workshop and On-Farm Demonstrations

April 17, 2018

GARRETT COUNTY

MANURE INJECTION DEMONSTRATION DAYS

Innovations in Manure Application and Nutrient Management Practices

Farm Smarter

Rising fertilizer costs require farmers to maximize the use of “free” nutrients available in manure. Incorporating manure into the soil is an effective management strategy for keeping these valuable nutrients in the field. This program offers practical strategies for injecting manure into the soil to allow incorporation while maintaining a no-tillage management system. Farmers will have an opportunity to talk to custom applicators, discuss costs, and learn about cost-share programs for manure injection and manure transport.

**Participants receive continuing education units from the Maryland Nutrient Management Program.*

WORKSHOP & DEMONSTRATION AGENDA

Tuesday, April 17, 2018 | Includes Lunch, Please Register

Location: Delvin, Dale, and Wayne Mast Farm
3108 Hare Hollow Road
Grantsville, MD 21536

Schedule: 9:30 AM
Registration, Coffee and Donuts

10:00 AM – 4:30 PM
Manure Injection Demonstrations

11:00 AM
Guest Speakers and Topics

- Joe Bartenfelder, *Maryland Agriculture Secretary*
- Norm Astle, *Maryland Cost-Share Programs*
- University of MD Extension Educator
- Surviving the Next Farm Financial Crisis
- Managing Manure for Increased Profitability

12 Noon – 1 PM
Complimentary Lunch

Please register by April 13, 2018 for this event. Call the Garrett Soil Conservation District at 301-334-6951.

April 18-19, 2018 | Additional Farm Demonstrations

Please contact the Garrett Soil Conservation District for more details.
