LNTP 244  Herbaceous Plant Materials  3 semester hours
(at Agricultural History Farm Park, Derwood, MD)
Explore the world of herbaceous plant materials. We’ll cover annuals, perennials, and ornamental
grasses and focus on their uses in the landscape. Course includes Saturday field trips to Longwood
Gardens, U.S. Botanic Gardens, and Brookside Gardens.
Monday 6/6- 8/15  CRN 40917  Lecture 1:00 - 3:30 p.m.
CRN 40918  Lab  2:35 - 4:50 p.m.

LNTP 295-B:  Special Topics in Environmental Management and Sustainability /Best
Management Practices for Healthy Watersheds  1 semester hour
(at Germantown Campus)
This course offers the landscape professional and the advanced gardener specialized training in the
best management practices (BMP’s) used to minimize stormwater runoff and environmental
degradation. Landscape professionals who complete the course will be added to Montgomery County
Department of Environment Landscape Professionals List.
Wednesday, Thursday and Friday  6/22 - 6/24
CRN 42417  Lecture 9:00 a.m. to 2:30 pm.

LNTP 290-B: Special Topics in Sustainable and Organic Food Production / Medicinal Plants
(at Takoma Park)  2 semester hours
Introduction to the growth, culture, and science related to the production and use of medicinal plants.
Emphasis on plant source, plant description, the active agent and its beneficial or detrimental
physiological action and effects. Emphasis on herbal medicine; secondary chemistry of active
compounds, oil extraction, and utilization of these plants. Field trip to Green Pharmacy and classroom
demonstrations are integrated into the course.
Tuesday  6/25 - 7/26  CRN 42467  Lecture 10:30 a.m. - 2:00 p.m.

LNTP 204  Landscape Construction Methods & Estimating
(at Germantown Campus)  3 semester hours
Learn the importance of landscape construction detail and design for successful landscape planning.
We’ll explore various site factors, construction features and materials, wood and masonry
construction, as well as cost estimating.
Tuesday and Thursday, 6/2 - 7/21
CRN 41910  Lecture 6:00 - 7:40 p.m.
CRN 41911  Lab  7:50 - 9:30 p.m.
