Mission: The Maryland Master Gardener mission is to support the University of Maryland Extension by educating Maryland residents about safe, effective and sustainable horticultural practices that build healthy gardens, landscapes and communities.

Listed below are the approved Montgomery County Master Gardener activities and contact(s). If you are interested in participating in one of these activities, email or call the contact person who is listed. Each activity qualifies as service “hours” (25 hrs. required for non-intern MGs) that can be listed on your green sheet. Any other activity must be approved by the Montgomery County Master Gardener Coordinator.
