My Smart Choice Health Insurance Workbook

7th edition
Smart Choice and Smart Use Health Insurance™
University of Maryland Extension Signature Program

2021 University of Maryland Extension Health Insurance Literacy (HILI) Team:
Michael Bievenour, MEd; Jesse Ketterman, PhD; Lynn Little, MS (Emerita); Lisa McCoy, MS, RDN; Dorothy Nuckols, MPH; Carrie
Sorenson, MPH: Extension Educators
Bonnie Braun, PhD, Professor Emerita; Ali Hurtado, PhD; UMD School of Public Health
Chenzi Wang, PhD, Coordinator of Program Development and Evaluation
Maria Pippidis, MS, AFC®, FFC®, Extension Educator, University of Delaware Cooperative Extension

Funding for this project is provided by
University of Maryland College of Agriculture and Natural Resources and University of Maryland Extension

Parts of this document were adapted from the University of Missouri Making Your Money Count Curriculum, Chapter 7.
Some information was adapted from www.HealthCare.Gov including the definitions for the Important Words to Know sections of this workbook.

For additional health insurance information, questions and answers go to: extension.umd.edu/insure
For questions about the workbook, contact: Jesse Ketterman jketterm@umd.edu

The American Association of Family and Consumer Sciences awarded Smart Choice Health Insurance™
the 2014 Family Economics Resource Management Community Education Award.

The National Extension Association of Family and Consumer Sciences awarded Smart Choice Health
Insurance™ a 2015 Regional Family Health and Wellness Award.

The USDA National Institute for Food and Agriculture awarded Smart Choice Health Insurance™
the 2016 Jeanne M. Priester Award, Individuals and Families category in recognition of outstanding contributions to the Cooperative
Extension System and the public in the area of health and wellness and the positive impact it has had on improving health insurance
literacy among individuals and families.

University of Maryland, College of Agriculture and Natural Resources awarded Smart Choice Health Insurance™ the 2016 Integrated
Research and Extension Award for taking research and translating that research into education and delivering that education to meet
consumer needs.

The Association for Financial Counseling and Planning Education awarded Smart Choice and Smart Use Health Insurance™ the 2017 the
outstanding Educational Program for having impact in the field, being innovative and adaptable for financial practitioners and educators.

University of Maryland Extension recognized Smart Choice and Smart Use Health Insurance™ as a Signature Program in 2017.

This workbook and content of the Smart Choice and Smart Use Health Insurance™ are trademarked. For more information see the back cover of this document.

Key Questions I Need to Answer

Why?
• Why do I need health insurance?
• Why is it important?

What?
• What do I need and want?
• What are my choices?

How?
• How much can I afford?
• How much will it cost?

Answering these important questions will help me make a Smart Choice health insurance decision.
Did you know that most consumers dread making decisions about health insurance? They are not really sure if they have the right amount of health insurance coverage.

Most are not comfortable with the terms and rules of health insurance plans. Many consumers don’t have confidence in their decisions.

Health insurance is very important, but choosing the best plan for you and your family can be complicated and expensive.

This workbook offers tools to give you confidence and help you build your smart shopping skills.

The tools you will find in this workbook are:

- **Definitions** you will need to understand health insurance.
- **Worksheets** to help you make your own Smart Choice:
  - **My Health Insurance Needs** to help you identify you and your family’s health care needs - pages 6-9;
  - **My Health Insurance Plan Comparison** to help you compare plans and estimate costs - pages 13-20;
  - **My Monthly Spending Plan** to help you plan for health care costs - pages 21-22.
- **Let’s get started.**

---

**My Smart Choice Health Insurance Decision Checklist**

- Make a list of my questions before it is time to choose my health plan.
- Review important words to know (including deductible, out-of-pocket costs, copayment, coinsurance).
- Complete the **My Health Insurance Needs** Worksheet.
- Explore health insurance options available to me and my family.
- Complete the **My Health Insurance Plan Comparison** worksheet.
- Gather financial information and complete the **My Monthly Spending Plan** to determine my health insurance budget.
- Investigate savings options for my health care dollars.
- Compare my health insurance options to determine which plan best fits my needs and spending plan.
- **Make a Smart Choice health insurance decision.**
How Do I Know How Much Health Insurance I Will Need?

The first worksheet, My Health Insurance Needs, will help you put together all the details about the health services you currently use.

As you fill in the worksheets keep in mind that Health Insurance Marketplace insurance plans for individuals and small businesses include Essential Health Benefits and Preventive Services.

Under any plan sold in the consumer or small business Health Insurance Marketplace, healthcare providers participating in the Network must offer Preventive Services with no out-of-pocket cost to you. If you use healthcare providers not in the network, you will have to pay a higher copayment and/or higher coinsurance.

If you have an employer sponsored health plan and are not sure if your plan covers Preventive Services, go to the health insurance company’s website or talk to your employer’s health benefits representative.

To complete the My Health Insurance Needs worksheet you will need to think about how you and your family use Health Care Services. Look back through a calendar or your health records to make an estimate about which health care providers you have seen and how often. If you haven’t kept records, you can ask your health care provider or pharmacist for this information. If you have health insurance, the insurance company will also have this information. Contact a customer service representative or go online to review your account.

✔ Now you are on your way to making a Smart Choice health insurance decision for you and your family.

Healthy Choices

Health Care Services - Health care delivered by practitioners in medicine, optometry, dentistry, nursing, pharmacy, emergency medical, allied health, and other disciplines.

Essential Health Benefits - Must include items and services within at least the following 10 categories: ambulatory patient services; emergency services; hospitalization; maternity and newborn care; mental health and substance use disorder services, including behavioral health treatment; prescription drugs; rehabilitative and habilitative services and devices; laboratory services; preventive and wellness services and chronic disease management; and pediatric services, including oral and vision care.

Preventive Services - Most health plans must cover a set of preventive services like annual check-ups, shots and screening tests at no additional out-of-pocket cost to you.

Health Insurance Marketplace (Marketplace) - A web site where individuals, families, and small businesses can learn about their health coverage options; compare health insurance plans based on costs, benefits, and other important features; choose a plan; and, enroll in coverage.

Network - Groups your health insurer or plan has contracts with to provide health care services. Anyone who is part of the group is considered “in-network” or a “preferred provider.” A provider who is not part of the group is “out-of-network.”
My Health Insurance Needs

SECTION 1: My Family's Health Care Visits

This section will help you identify you (and your family's) needed health care services.

1) Do we have a **primary care provider**? □ Yes □ No

2) Do we see any **specialists**? Examples: allergist, OB-GYN, ophthalmologist □ Yes □ No

3) How many times did my family and I visit the doctor? Please fill in the chart below.

<table>
<thead>
<tr>
<th>Person</th>
<th>Health Care Provider Visits</th>
<th>Why You See Them</th>
<th>How Often Seen</th>
</tr>
</thead>
<tbody>
<tr>
<td>Example</td>
<td>Dr. Smith</td>
<td>Yearly exam and flu shot</td>
<td>1 time</td>
</tr>
<tr>
<td></td>
<td>Dr. Sanchez (ophthalmologist)</td>
<td>Yearly eye exam</td>
<td>1 time</td>
</tr>
<tr>
<td></td>
<td>Dr. Jones (dentist)</td>
<td>Twice yearly cleaning</td>
<td>2 times</td>
</tr>
<tr>
<td>Me</td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td>Spouse/Partner</td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td>Child</td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td>Child</td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td>Child</td>
<td></td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

**Important Words to Know**

**Primary Care Provider** - A doctor, nurse practitioner, clinical nurse specialist or physician assistant, as allowed under state law, who provides, coordinates or helps a patient access a range of health care services.

**Specialist** - A health care provider who focuses on a specific area of medicine or health care.
My Health Insurance Needs

SECTION 1: My Family’s Health Care Visits - continued

Below are some questions to help you figure out how often you and your family visited a provider in the past year. Use the information from the chart on page 6 to fill in the blank spaces for questions 4 through 8.

4) About how many times did we visit our primary care provider in the past year? ________

5) About how many times did we visit specialists in the past year? ________

6) In the past year, how many times did we go to urgent care? ________

7) In the past year, how many times did we go to the emergency room (ER)? ________

8) How many people do I need to buy insurance for? (You, spouse or partner, and children) ________

SECTION 2: My Family’s Prescriptions

9) Do we take any prescription drugs? □ Yes □ No

Use this chart to help you figure out which prescription drugs your family takes and how much they cost.

<table>
<thead>
<tr>
<th>I take:</th>
<th>How often do I get refills?</th>
<th>How much do I have to pay for each refill?</th>
</tr>
</thead>
<tbody>
<tr>
<td>Example: Synthroid</td>
<td>Quarterly</td>
<td>$20</td>
</tr>
</tbody>
</table>

My spouse or partner and children take:

<table>
<thead>
<tr>
<th>How often do they get refills?</th>
<th>How much do they have to pay?</th>
</tr>
</thead>
</table>
My Health Insurance Needs

SECTION 3: My Family’s Health Care Changes for the Coming Year

10) Is there anything coming up in the next 12-18 months that I did not have to plan for last year?  
   □ Yes  □ No

The chart below can help you think about your health care needs for the coming year. You can then put all these needs together in one place. This can help you see if you need to plan for and choose different health insurance coverage.

<table>
<thead>
<tr>
<th>New situation I will have</th>
<th>What kind of insurance coverage will I need?</th>
</tr>
</thead>
<tbody>
<tr>
<td>Example: I want to have a baby</td>
<td>Obstetrics and gynecology, hospital stay, prenatal medicine</td>
</tr>
<tr>
<td>Example: Child turning 26</td>
<td>Cannot be covered anymore on my insurance</td>
</tr>
</tbody>
</table>

<table>
<thead>
<tr>
<th>Will my current health insurance coverage be enough?</th>
<th>□ Yes</th>
<th>□ No</th>
<th>□ Don’t Know</th>
</tr>
</thead>
</table>

 SECTION 4: Prioritizing My Family’s Health Insurance Needs

11) Based on my answers to questions 1-10 (pgs. 6-8), I may want to pay attention to the items below when choosing a health insurance plan. To help identify the best plan for me and my family, I would rank from 1 (most important) to 5 (least important) the following:

_____ The likely changes in health care needs for me and my family in the next 12-18 months.
_____ The health care providers my family and I see are included in the **network** of the health insurance plan.
_____ The prescription drugs that my family and I need are covered by the insurance.
_____ The monthly (or yearly) cost of insurance (this would be the **premium**).
_____ The amount of **out-of-pocket costs** including emergencies, **deductible, copayment** or **coinsurance and** out-of-pocket maximum.

SECTION 5: Summary of Insurance Coverage Needs

12) Given my family’s health history, my health insurance needs include coverage for (check all that apply):

_____ Health  _____ Vision
_____ Dental  _____ Mental Health
_____ Preventive Services  _____ Substance Abuse Treatment
_____ Prescription Drugs  _____ Maternity Coverage

---

Important Words to Know

**Premium** - The amount that must be paid for your health insurance plan. Premiums may be shared between you and your employer.

**Out-of-pocket costs** - Your expenses for medical care that aren’t reimbursed by insurance. Out-of-pocket costs include deductibles, coinsurance, and copayments for covered services plus costs for services that aren’t covered by insurance.

**Deductible** - The amount you owe for health care services your health insurance plan covers before your health insurance plan begins to pay. For example, if your deductible is $1,000, your plan won’t pay anything until you’ve met your $1,000 deductible for covered health care services subject to the deductible. The deductible may not apply to all services.

**Copayment** - A fixed amount you pay for a covered health care service, usually when you get the service. You may have to meet your deductible first.

**Coinsurance** - Your part of the costs of a covered health care service. This is a part of the allowed amount for the service. You pay this amount once you have met your deductible.

**Maternity Coverage** - The coverage for prenatal screenings, delivery and, after birth, well baby and well mother visits.

**Benefits** - The health care items and services covered by a health insurance plan. Covered benefits and excluded services are defined in the health insurance plan’s documents.

**Allowed Amount** - The maximum dollar amount on which an insurance payment is based for covered health care products and services. This may also be called an ‘eligible expense,’ ‘payment allowance’ or ‘negotiated rate.’ If your health provider charges more than the allowed amount, you may have to pay the difference.
What Are the Sources for Health Insurance Plans?
There are several ways in which you can access and buy health insurance. They can be divided into two categories: private insurance and government insurance. Examples of private insurance sources include plans that are offered through your employer, the Health Insurance Marketplace, and private insurers. Government insurance includes the Children’s Health Insurance Program (CHIP), Medicaid, Medicare, and TRICARE.

What Is a Summary of Benefits and Coverage (SBC) Statement?
All health insurance plans must provide an easy to read summary format that lets you make comparisons of costs and coverage between health plans. You can compare options based on price, benefits and other features that may be important to you. As you review the Summary of Benefits and Coverage (SBC) from your employer, the Marketplace or insurance provider, be sure to consider your health care service needs by comparing page 9 of this workbook with the health care services covered by the plan.

What Are the Health Plan Options and How Are They Different?
There are five main types of health insurance plans: Fee-for-service plans; Exclusive Provider Organization (EPO); Health Maintenance Organization (HMO); Point-Of-Service (POS) and Preferred Provider Organization (PPO).

It is important for you to understand the differences in types of health care plans when making a Smart Choice health insurance decision.

Understanding Types of Plans

Fee-for-Service Plan - A type of insurance plan in which health care providers receive a fee for each service provided to insured patients. These plans normally cover hospitalization, outpatient care, and doctor services in or out of the hospital. You select the healthcare providers for office visits or treatments. You are billed for the service by the health care provider and then reimbursed by the insurance company, or you can “assign” direct payment by the insurance company to the provider. These plans typically require you to pay premiums, deductibles, and coinsurance. Limits on certain coverage or exclusions may apply.

Exclusive Provider Organization (EPO) - A plan that covers services only if you go to health care providers, specialists, or hospitals on the plan’s approved list (network). You can go to any provider in an emergency.

Health Maintenance Organization (HMO) - A plan that only covers care from providers who are part of the HMO. It generally will not cover out-of-network care unless it’s an emergency. You may have to live or work in a certain area to be covered.

Point of Service (POS) - A plan in which you pay less if you use providers that are in the plan’s network. You will need to select a primary care provider for regular checkups and referrals to see a specialist. You can use out-of-network providers at a higher cost.

Preferred Provider Organization (PPO) - A plan that has a special network or group of providers. You pay less if you use providers in the plan’s network. You may not need a referral from your primary care doctor to see a specialist. This type of plan usually has payment options for using health care services that are in and out of the network. Copayments are charged for each visit.
What Are The Marketplace Health Plan Categories?

Plans in the Marketplace are separated into 4 health plan categories - Bronze, Silver, Gold, or Platinum - based on the average cost of coverage. The plan category you choose affects the total amount you’ll likely spend for essential health benefits during the year. All plan types (EPO, HMO, POS and PPO) are available on the Health Insurance Marketplace. If you select a POS plan, for example, you will be responsible for more of the health costs at the bronze level than at the platinum level. Comparing Marketplace cost tiers allows you to select the plan that best fits your health care needs and your spending plan.

For more information on how the Health Insurance Marketplace works, contact your local Marketplace office or go to www.healthcare.gov.

How Do I Compare Health Insurance Plans?

Whether the plans you are considering are purchased from the Health Insurance Marketplace, through your employer or a private insurer, My Health Insurance Plan Comparison worksheet is a tool you can use to organize and compare the information about coverage and costs for the plans. Important criteria are on the left side of the worksheet. There is a place to make notes for three different plans you may want to compare. Refer back to your My Health Insurance Needs worksheet (pgs. 6-9) for information as you complete the plan comparisons.

This comparison tool will help you estimate the out-of-pocket costs for each plan you are considering. You will find most of the information you need in the Summary of Benefits and Coverage provided by the insurance company. For additional information check the company’s website or call the company’s customer service representatives.

If the plan you are considering doesn’t include important medical services that your family needs, you may need to choose a different plan or buy an additional plan that will cover the necessary medical services. For example, adult dental or vision services are not covered in some plans. So you may need to purchase an additional plan.

Description of the Tiers

**Bronze** - Insurance will cover 60% of costs for most people. Your coinsurance will be about 40% of costs. This tier has the lowest premiums and the highest out-of-pocket costs.

**Silver** - Insurance will cover 70% of costs for most people. Your coinsurance will be about 30% of costs. This plan may offer the best value if you qualify for cost-sharing reductions based on your income.

**Gold** - Insurance will cover 80% of costs for most people. Your coinsurance will be about 20% of costs. This tier has high premiums and low out-of-pocket costs.

**Platinum** - Insurance will cover 90% of costs for most people. Your coinsurance will be about 10% of costs. This tier has the highest premiums and the lowest out-of-pocket costs.

From: https://www.healthcare.gov/glossary/health-plan-categories/
How Does Health Insurance Work?

Understanding how insurance works and what it will cost you (deductibles, **out-of-pocket maximums/limits**, copayments, and coinsurance) can be a little tricky. Here is an example of how and by whom costs are covered over the health insurance plan year.

**Important Words to Know**

**Out-of-Pocket Maximum/Limit** - The most you pay during a plan year (12 months) before your health insurance or plan begins to pay 100% of the allowed amount. This limit never includes your premium, balance-billed charges, or health care your health insurance plan doesn’t cover or allow.

Some health insurance plans also do not include your copayments, deductibles, coinsurance payments, out-of-network payments, or other expenses toward your out-of-pocket maximum/limit.

In Medicaid and the Children’s Health Insurance Program (CHIP), premiums are counted toward the out-of-pocket maximum/limit.

Let’s get started.

This example is taken from the Glossary of Health Coverage and Medical Terms found at [https://www.cms.gov/CCIIO/Resources/Forms-Reports-and-Other-Resources/Downloads/uniform-glossary-final.pdf](https://www.cms.gov/CCIIO/Resources/Forms-Reports-and-Other-Resources/Downloads/uniform-glossary-final.pdf), September 2021
My Health Insurance Plan Comparison

This section will help you compare plans and decide which plans provide affordable access to the doctors and services your family needs. Some information is provided in the Summary of Benefits and Coverage for each plan. However, you may need to contact the insurance company website or customer service representative for more detailed information.

### Important Words to Know

**Referral** - A written order from your primary care provider for you to see a specialist or to get certain medical services. Some health insurance plans require a referral before you can get medical care from a specialist. If you do not, the plan may not pay for the services.

**Preauthorization** - A decision by your health insurer that health care service, treatment plan, prescription drug or durable medical equipment is medically necessary. The plan may require preauthorization for certain services before you receive them, except in an emergency.
My Health Insurance Plan Comparison

This section helps you compare health insurance plans for the important coverage you identified in Section 5 of My Health Insurance Needs (pg. 9). Some information will be provided in the plan’s Summary of Benefits and Coverage.

However, you may need to check the insurance company’s website or call the company’s customer service representatives to get additional information or to have questions answered for your specific situation.

</table>
Some health insurance plans cover the cost of **prescription drugs**, while others do not. Given your family’s medical service needs, it will be important to determine if you:

1) need prescription drug coverage and
2) have adequate insurance to cover these costs. Look back at pg. 7 for last year’s prescription drug costs for your family.

This section enables you to calculate the out-of-pocket costs for prescription drugs. For health insurance plans that include **prescription drug coverage**, use **Row 1** to determine your out-of-pocket costs. If you need to buy a prescription drug plan use **Row 2**. The final row **$ Total Prescription Drug Costs** will include the plan premium plus copayments.

### My Health Insurance Plan Comparison

#### Section 4: Prescription Drug Costs - use information on pg. 7 to calculate your costs.

### Important Words to Know

**Prescription Drug Coverage** - Health insurance or plan that helps pay for prescription drugs and medications.

**Formulary** - A list of prescription drugs covered by a prescription drug plan or another insurance plan offering prescription drug benefits. Also called a drug list.
Not all health insurance plans include **Vision Coverage**. Given your family's medical service needs, it will be important to:
1) determine if you need vision coverage and
2) have adequate insurance coverage to cover these costs.

This section provides a place for you to calculate the out-of-pocket costs for vision services. For health insurance plans that include vision services and products, use **Row 1** to determine your out-of-pocket costs. If you need to buy a vision health insurance plan use **Row 2**.

### Vision Coverage

**Row 1:** The cost of vision services is covered. I only have copayments.

</table>

### Total Vision Costs

Vision Services Costs + Vision Product Costs

| Total Vision Costs | $ ______ | $ ______ | $ ______ |
My Health Insurance Plan Comparison

Not all health insurance plans include **dental coverage**. With what you know about your family’s health care needs, think about:

1) if you need dental coverage and
2) if your plan covers these costs

This section gives you a place to calculate out-of-pocket costs for these dental services.

For health insurance plans that include dental coverage, use **Row 1** to figure out your out-of-pocket costs.

If you need to buy a dental health insurance plan use **Row 2**.

The final row **$ Dental Costs**, will include your premium plus your copayments.

### Section 6: Dental Care

</table>

---

**Important Words to Know**

**Dental Coverage**

Benefits that help pay for the cost of visits to a dentist for basic or preventive services, like teeth cleaning, X-rays, and fillings. In the Health Insurance Marketplace, dental coverage is available either as part of a comprehensive medical plan, or by itself through a "stand-alone" dental plan.
My Health Insurance Plan Comparison

The next page (page 20) will help you add up all the health, vision and dental insurance costs. Go back to the previous pages and copy the total costs for each type of health care. Look at the row that has a $ in front of it to find the total for that section.

Once you fill in the numbers, add up each column to find the Total Estimated Yearly Health Care Costs for each plan option you are comparing.

Now that you have calculated the yearly cost for health insurance plans, the next step is to calculate the Estimated Monthly Health Care Costs for the insurance plans you are comparing. Using the figures in the first column for each option, divide this number by 12 to estimate the monthly costs. Next add up the monthly cost column for each option to determine the estimated monthly cost for the plan.

The estimated monthly cost includes actual monthly amounts such as the monthly premium and also estimated monthly expenses such as copayments and deductibles.

You may be surprised that the option with the lowest premium may have the highest costs. This occurs because when paying lower premiums you are taking on more of the risk and responsibility and therefore may have more out-of-pocket expenses. See page 11, Description of the Tiers as a reminder.

Comparing health insurance plans will help you take charge of your health and finances. Knowing the total monthly and yearly costs for each option will help you select the most affordable plan that meets your health care needs.

Planning and saving for health care costs are important steps in being prepared when health care expenses occur.

Once you know the total annual and monthly costs for each plan you will be able to make a Smart Choice health insurance decision.

**Important Words to Know**

**Total Estimated Yearly Health Care Costs** - The total amount you may have to pay for health care. It includes premiums, deductibles, copayments, coinsurance and all out-of-pocket costs. This total is estimated before you actually have the coverage and have health expenses under the coverage.

**Estimated Monthly Health Care Costs** - This is the total yearly amount divided by 12. This figure can help you determine how much you can afford on a monthly basis. It will include the actual monthly premium costs plus the estimated out-of-pocket costs for copayments, coinsurance and deductibles.
### My Health Insurance Plan Comparison

Now you can begin to narrow down your choices to make a **Smart Choice** health insurance decision. The next worksheet, **My Monthly Spending Plan**, helps you organize your monthly costs for taxes, savings, living expenses and debt payments. Use your monthly bills, bank statements and credit card statements to estimate your monthly expenses. Try not to guess your expenses. By using accurate figures you’ll get a clear picture of your finances and be able to make more reliable financial decisions. Later you can determine how expenses can be adjusted so you can cover your health care costs. The monthly estimates for health care costs can be added to the **My Monthly Spending Plan** worksheet so you can decide which plan you can afford.

### Summary
- **Total Monthly Income**
- **Total Monthly Expenses**

**Difference** (total monthly income - total monthly expenses) = $______

### Periodic Expenses

These expenses come up once or twice a year. Fill in the estimated costs under the month they are due. Add your total and divide by 12 to determine your monthly estimate. You will want to set aside the monthly estimate so you can have the money when the periodic expense occurs.

- January
- February
- March
- April
- May
- June
- July
- August
- September
- October
- November
- December

**Subtotal**

**Subtotal +12 = Total monthly portion of periodic expenses**

11/15/2021
To make a **Smart Choice**, review the information you used to complete the following worksheets: **My Health Insurance Needs**, **My Health Insurance Plan Comparison**, and **My Monthly Spending Plan**. By completing these worksheets you will know what you need and can afford.

Now you can choose the health insurance plan that fits your needs (from pgs. 6 - 9) and your spending plan (from pgs. 21-22).

If there are two plans that meet your needs and fit into your spending plan, look at what they offer. Choose an affordable plan that best meets your current and upcoming health care needs.

If there is a plan that doesn’t fit into your spending plan but it meets your health care needs now and for the future, review your spending plan to determine how you might adjust some of your expenses or increase your income to cover the health care costs.

By completing these steps you should feel confident that you’ve made a **Smart Choice** health insurance decision.

**Congratulations!**

Once you buy a health insurance plan, you will need to understand and use your health insurance benefits.
