# **Key Questions I Need to Answer**

Answering these important questions will help me make a Smart Choice health insurance decision.

# Using this Workbook Can Help You Make a Smart Choice Health Insurance Decision

Did you know that most consumers dread making decisions about health insurance? They are not really sure if they have the right amount of health insurance coverage.

Most are not comfortable with the terms and rules of health insurance plans. Many consumers don't have confidence in their decisions.

Health insurance is very important, but choosing the best plan for you and your family can be complicated and expensive.

This workbook offers tools to give you confidence and help you build your smart shopping skills.

The tools you will find in this workbook are:

Definitions you will need to understand health insurance.
 Worksheets to help you make your own Smart Choice:

•My Health Insurance Needs to help you identify you and your family's health care needs - pages 6-9;

•My Health Insurance Plan Comparison to help you compare plans and estimate costs - pages 13-20;

•My Monthly Spending Plan to help you plan for health care costs - pages 21-22.

Let's get started.

# My Smart Choice Health Insurance Decision Checklist

- ☐ Make a list of my questions before it is time to choose my health plan.
- Review important words to know (including deductible, out-of-pocket costs, copayment, coinsurance).
- Complete the **My Health Insurance Needs** Worksheet.
- Explore health insurance options available to me and my family.
- Complete the **My Health Insurance Plan Comparison** worksheet.
- Gather financial information and complete the **My Monthly Spending Plan** to determine my health insurance budget.
  - ☐ Investigate savings options for my health care dollars.
- Compare my health insurance options to determine which plan best fits my needs and spending plan.

Make a Smart Choice health insurance decision.

# How Do I Know How Much Health Insurance I Will Need?

The first worksheet, **My Health Insurance Needs**, will help you put together all the details about the health services you currently use.

As you fill in the worksheets keep in mind that **Health Insurance Marketplace** insurance plans for individuals and small businesses include **Essential Health Benefits** and **Preventive Services.** 

Under any plan sold in the consumer or small business **Health Insurance Marketplace**, healthcare providers participating in the **Network** must offer **Preventive Services** with no out-of-pocket cost to you. If you use healthcare providers not in the **network**, you will have to pay a higher copayment and/or higher coinsurance.

If you have an employer sponsored health plan and are not sure if your plan covers **Preventive Services**, go to the health insurance company's website or talk to your employer's health benefits representative. To complete the **My Health Insurance Needs** worksheet you will need to think about how you and your family use **Health Care Services**. Look back through a calendar or your health records to make an estimate about which health care providers you have seen and how often. If you haven't kept records, you can ask your health care provider or pharmacist for this information. If you have health insurance, the insurance company will also have this information. Contact a customer service representative or go online to review your account.

Now you are on your way to making a Smart Choice health insurance decision for you and your family.

#### **Important Words to Know**

**Health Care Services** - Health care delivered by practitioners in medicine, optometry, dentistry, nursing, pharmacy, emergency medical, allied health, and other disciplines.

Essential Health Benefits - Must include items and services within at least the following 10 categories: ambulatory patient services; emergency services; hospitalization; maternity and newborn care; mental health and substance use disorder services, including behavioral health treatment; prescription drugs; rehabilitative and habilitative services and devices; laboratory services; preventive and wellness services and chronic disease management; and pediatric services, including oral and vision care.

**Preventive Services** - Most health plans must cover a set of preventive services like annual check-ups, shots and screening tests at no additional out-of-pocket cost to you.

Health Insurance Marketplace (Marketplace) - A web site where individuals, families, and small businesses can learn about their health coverage options; compare health insurance plans based on costs, benefits, and other important features; choose a plan; and, enroll in coverage.

**Network** - Groups your health insurer or plan has contracts with to provide health care services. Anyone who is part of the group is considered "in-network" or a "preferred provider." A provider who is not part of the group is "out-of-network."

SECTION 1: M	ly Family's Health Care Visits			
This section will	l help you identify you (and your f	amily's) needed health care service	es.	Important Words to Know
1) Do we have				
2	any <b>specialists?</b> Examples: allerg	ist, OB-GYN, ophthalmologist e doctor? Please fill in the chart be	☐ Yes ☐ No elow.	<b>Primary Care Provider -</b> A doctor, nurse practitioner, clinical nurse specialist or physician assistant, as

# SECTION 1: My Family's Health Care Visits - continued

<ul> <li>Below are some questions to help you figure out how off year. Use the information from the chart on page 6 to fit</li> <li>4) About how many times did we visit our primary ca</li> <li>5) About how many times did we visit specialists in th</li> <li>6) In the past year, how many times did we go to urge</li> <li>7) In the past year, how many times did we go to the</li> <li>8) How many people do I need to buy insurance for?</li> </ul>	Important Words to Know Urgent Care - Care for an illness, injury or condition serious enough that a reasonable person would seek care right away, but not so severe as to require emergency room care.		
<ul> <li>SECTION 2: My Family's Prescriptions</li> <li>9) Do we take any prescription drugs? Yes</li> </ul>	Prescription Drugs - Medicines that by law re- quire a prescription from the medical provider.		
Use this chart to help you figure out which prescription drugs your family takes and how much they cost. take: How often do I get refills? How Example: Synthroid Quarterly \$20			v much do I have to pay for each refill?
My spouse or partner and children take:	How often do they get refills?		nuch do they have to pay?

#### SECTION 3: My Family's Health Care Changes for the Coming Year

10) Is there anything coming up in the next 12-18 months that I did not have	e to plan for last year?	🗌 Yes 🗌 No
--	--------------------------	------------

The chart below can help you think about your health care needs for the coming year. You can then put all these needs together in one place. This can help you see if you need to plan for and choose different health insurance coverage.

New situation I will have	What kind of insurance coverage will I need?
Example: I want to have a baby	Obstetrics and gynecology, hospital stay, prenatal medicine
Example: Child turning 26	Cannot be covered anymore on my insurance
Will my current health insura	nce coverage be enough? 🗌 Yes 🗌 No 📄 Don't Know

#### **SECTION 4: Prioritizing My Family's Health Insurance Needs**

Based on my answers to questions 1-10 (pgs. 6-8), I may 11) want to pay attention to the items below when choosing a health insurance plan. To help identify the best plan for me and my family, I would rank from 1 (most important) to 5 (least important) the following :

- The health care providers my family and I see are included in the **network** of the health insurance plan.
- The prescription drugs that my family and I need are covered by the insurance.
- The monthly (or yearly) cost of insurance (this would be the premium).
- The amount of **out-of-pocket costs** including emergencies, deductible, copayment or coinsurance and out-of-pocket maximum.

#### **SECTION 5: Summary of Insurance Coverage Needs**

- Given my family's health history, my health insurance needs 12) include coverage for (check all that apply):
  - Health
- Vision

Dental

- Mental Health
- **Preventive Services**
- Prescription Drugs
- Substance Abuse Treatment
- \_\_\_\_ Maternity Coverage

#### **Important Words to Know**

**Premium** - The amount that must be paid for your health insurance plan. Premiums may be shared between you and your employer.

**Out-of-pocket costs** - Your expenses for medical care that aren't reimbursed by insurance. Out-of-pocket costs include deductibles, coinsurance, and copayments for covered services plus costs for services that aren't covered by insurance.

Deductible - The amount you owe for health care services your health insurance plan covers before your health insurance plan begins to pay. For example, if your deductible is \$1,000, your plan won't pay anything until you've met your \$1,000 deductible for covered health care services subject to the deductible. The deductible may not apply to all services.

**Copayment** - A fixed amount you pay for a covered health care service, usually when you get the service. You may have to meet your deductible first.

**Coinsurance** - Your part of the costs of a covered health care service. This is a part of the allowed amount for the service. You pay this amount once you have met your deductible.

**Maternity Coverage** - The coverage for prenatal screenings, delivery and, after birth, well baby and well mother visits.

Benefits - The health care items and services covered by a health insurance plan. Covered benefits and excluded services are defined in the health insurance plan's documents.

Allowed Amount - The maximum dollar amount on which an insurance payment is based for covered health care products and services. This may also be called an 'eligible expense,' 'payment allowance' or 'negotiated rate.' If your health provider charges more than the allowed amount, you may have to pay the difference.

The likely changes in health care needs for me and my family in the next 12-18 months.

# What Are the Sources for Health Insurance Plans?

There are several ways in which you can access and buy health insurance. They can be divided into two categories: private insurance and government insurance. Examples of private insurance sources include plans that are offered through your employer, the Health Insurance Marketplace, and private insurers. Government insurance includes the Children's Health Insurance Program (CHIP), Medicaid, Medicare, and TRICARE.

# What Is a Summary of Benefits and Coverage (SBC) Statement?

All health insurance plans must provide an easy to read summary format that lets you make comparisons of costs and coverage between health plans. You can compare options based on price, benefits and other features that may be important to you. As you review the Summary of Benefits and Coverage (SBC) from your employer, the Marketplace or insurance provider, be sure to consider your health care service needs by comparing page 9 of this workbook with the health care services covered by the plan.

# What Are the Health Plan Options and How Are They Different?

There are five main types of health insurance plans: **Fee-forservice** plans; **Exclusive Provider Organization (EPO)**; **Health Maintenance Organization (HMO); Point-Of-Service (POS)** and **Preferred Provider Organization (PPO)**.

It is important for you to understand the differences in types of health care plans when making a **Smart Choice** health insurance decision.

# **Understanding Types of Plans**

**Fee-for-Service Plan** - A type of insurance plan in which health care providers receive a fee for each service provided to insured patients. These plans normally cover hospitalization, outpatient care, and doctor services in or out of the hospital. You select the healthcare providers for office visits or treatments. You are billed for the service by the health care provider and then reimbursed by the insurance company, or you can "assign" direct payment by the insurance company to the provider. These plans typically require you to pay premiums, deductibles, and coinsurance. Limits on certain coverage or exclusions may apply.

**Exclusive Provider Organization (EPO)** - A plan that covers services **only** if you go to health care providers, specialists, or hospitals on the plan's approved list (network). You can go to any provider in an emergency.

**Health Maintenance Organization (HMO)** - A plan that only covers care from providers who are part of the HMO. It generally will not cover out-of-network care unless it's an emergency. You may have to live or work in a certain area to be covered.

**Point of Service (POS)** - A plan in which you pay less if you use providers that are in the plan's network. You will need to select a primary care provider for regular checkups and referrals to see a specialist. You can use out-of-network providers at a higher cost.

**Preferred Provider Organization (PPO)** - A plan that has a special network or group of providers. You pay less if you use providers in the plan's network. You may not need a referral from your primary care doctor to see a specialist. This type of plan usually has payment options for using health care services that are in and out of the network. Copayments are charged for each visit.

# What Are The Marketplace Health Plan Categories ?

Plans in the Marketplace are separated into 4 health plan categories - **Bronze, Silver**, **Gold**, or **Platinum** - based on the average cost of coverage. The plan category you choose affects the total amount you'll likely spend for essential health benefits during the year. All plan types (EPO, HMO, POS and PPO) are available on the Health Insurance Marketplace. If you select a POS plan, for example, you will be responsible for more of the health costs at the bronze level than at the platinum level. Comparing Marketplace cost tiers allows you to select the plan that best fits your health care needs and your spending plan.

For more information on how the Health Insurance Marketplace works, contact your local Marketplace office or go to <u>www.healthcare.gov.</u>

#### How Do I Compare Health Insurance Plans?

Whether the plans you are considering are purchased from the Health Insurance Marketplace, through your employer or a private insurer, **My Health Insurance Plan Comparison** worksheet is a tool you can use to organize and compare the information about coverage and costs for the plans. Important criteria are on the left side of the worksheet. There is a place to make notes for three different plans you may want to compare. Refer back to your **My Health Insurance Needs** worksheet (pgs. 6-9) for information as you complete the plan comparisons.

This comparison tool will help you estimate the out-of-pocket costs for each plan you are considering. You will find most of the information you need in the Summary of Benefits and Coverage provided by the insurance company. For additional information check the company's website or call the company's customer service representatives.

If the plan you are considering doesn't include important medical services that your family needs, you may need to choose a different plan or buy an additional plan that will cover the necessary medical services. For example, adult dental or vision services are not covered in some plans. So you may need to purchase an additional plan.

#### **Description of the Tiers**

**Bronze** - Insurance will cover 60% of costs for most people. Your coinsurance will be about 40% of costs. This tier has the lowest premiums and the highest out-ofpocket costs.

**Silver**- Insurance will cover 70% of costs for most people. Your coinsurance will be about 30% of costs. This tier has low premiums and higher out-of-pocket cost. This plan may offer the best value if you qualify for cost-sharing reductions based on your income.

**Gold** - Insurance will cover 80% of costs for most people. Your coinsurance will be about 20% of costs. This tier has high premiums and low out-of-pocket costs.

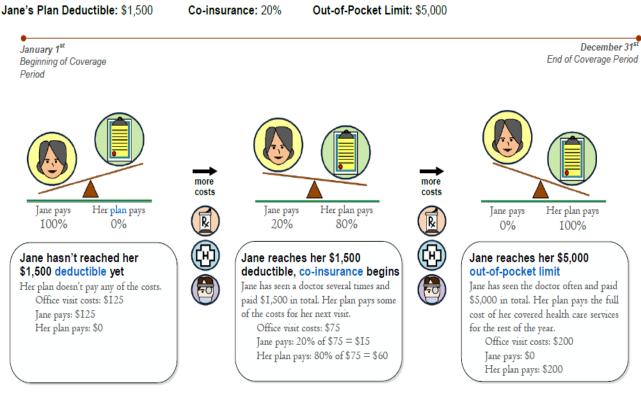

**Platinum -** Insurance will cover 90% of costs for most people. Your coinsurance will be about 10% of costs. This tier has the highest premiums and the lowest out-of-pocket costs.

From: <u>https://www.healthcare.gov/</u> <u>glossary/health-plan-categories/</u>

### How Does Health Insurance Work?

Understanding how insurance works and what it will cost you (deductibles, **out of-pocket maximums/limits,** copayments, and coinsurance) can be a little tricky. Here is an example of how and by whom costs are covered over the health insurance plan year.

# How You and Your Insurer Share Costs - Example

This example is taken from the Glossary of Health Coverage and Medical Terms found at <a href="https://www.cms.gov/CCIIO/Resources/Forms-Reports-and-Other-Resources/Downloads/uniform-glossary-final.pdf">https://www.cms.gov/CCIIO/Resources/Forms-Reports-and-Other-Resources/Downloads/uniform-glossary-final.pdf</a>, September 2021

#### Important Words to Know

**Out-of-Pocket Maximum/Limit** -The most you pay during a plan year (12 months) before your health insurance or plan begins to pay 100% of the allowed amount. This limit never includes your premium, balance-billed charges, or health care your health insurance plan doesn't cover or allow.

Some health insurance plans also do not include your copayments, deductibles, coinsurance payments, out-of-network payments, or other expenses toward your out-of-pocket maximum/limit.

In Medicaid and the Children's Health Insurance Program (CHIP), premiums are counted toward the out-of-pocket maximum/limit.

# Let's get started.

This section will help you compare plans and decide which plans provide affordable access to the doctors and services your family needs. Some information is provided in the Summary of Benefits and Coverage for each plan. However, you may need to contact the insurance company website or customer service representative for more detailed information.

Some health insurance plans cover the cost of **prescription drugs**, while others do not. Given your family's medical service needs, it will be important to determine if you:

- 1) need prescription drug coverage and
- 2) have adequate insurance to cover these costs. Look back at pg. 7 for last year's prescription drug costs for your family.

This section enables you to calculate the out-of-pocket costs for prescription drugs. For health insurance plans that include **prescription drug coverage**, use **Row 1** to determine your out-of-pocket costs. If you need to buy a prescription drug plan use **Row 2**. The final row **\$ Total Prescription Drug Costs**, will include the plan premium plus copayments.

<b>Section 4: Prescrip</b> use information on p costs.		Option 1 Plan Name:	Option 2 Plan Name:	Option 3 Plan Name:	Important Words to Know Prescription Drug

Total Vision Costs	Vision Services Costs + Vision Product Costs	\$	\$	\$	

Not all health insurance plans include **dental coverage.** With what you know about your family's health care needs, think about:

1) if you need dental coverage and

2) if your plan covers these costs

This section gives you a place to calculate out-of-pocket costs for these dental services.

For health insurance plans that include dental coverage, use **Row 1** to figure out your out-of-pocket costs.

If you need to buy a dental health insurance plan use **Row 2**.

The final row **\$** Dental Costs, will include your premium plus your copayments.

Section 6: Do	ental Care	Option 1 Plan Name:	Option 2 Plan Name:	Option 3 Plan Name:	Important Words to Know

\$ Dental Costs	What I may pay yearly on dental services. For each column, insert the totals from <b>either</b> Row 1 or 2.	\$	\$	\$	

The next page (page 20) will help you add up all the Comparing health insurance plans will help you health, vision and dental insurance costs. Go back to take charge of your health and finances. Knowing the previous pages and copy the total costs for each the total monthly and yearly costs for each option type of health care. Look at the row that has a **\$** in front of it to find the total for that section.

Once you fill in the numbers, add up each column to Planning and saving for health care costs are find the Total Estimated Yearly Health Care **Costs** for each plan option you are comparing.

Now that you have calculated the yearly cost for health insurance plans, the next step is to calculate the Estimated Monthly Health Care Costs for the insurance plans you are comparing. Using the figures in the first column for each option, divide this number by 12 to estimate the monthly costs. Next add up the monthly cost column for each option to determine the estimated monthly cost for the plan.

The estimated monthly cost includes actual monthly amounts such as the monthly premium and also estimated monthly expenses such as copayments and deductibles.

You may be surprised that the option with the lowest premium may have the highest costs. This occurs because when paying lower premiums you are taking on more of the risk and responsibility and therefore may have more out-of-pocket expenses. See page 11, Description of the Tiers as a reminder.

will help you select the most affordable plan that meets your health care needs.

important steps in being prepared when health care expenses occur.

Once you know the total annual and monthly costs for each plan you will be able to make a **Smart Choice** health insurance decision.

#### **Important Words to Know**

**Total Estimated Yearly** Health Care Costs - The total amount you may have to pay for health care. It includes premiums, deductibles, copayments, coinsurance and all out-of-pocket costs. This total is estimated before you actually have the coverage and have health expenses under the coverage.

#### **Estimated Monthly Health**

**Care Costs** - This is the total yearly amount divided by 12. This figure can help you determine how much you can afford on a monthly basis. It will include the actual monthly premium costs plus the estimated out-of-pocket costs for copayments, coinsurance and deductibles.

			Option 1:		Option 2:		Option 3:	
Section 7: Estimating Monthly Medical Expenses		Yearly Cost	Yearly Cost divided by 12 = Monthly Cost	Yearly Cost	Yearly Cost divided by 12 = Monthly Cost	Yearly Cost	Yearly Cost divided by 12 = Monthly Cost	
Insurance Premium (from pg. 15)	What I may pay for insurance premiums	\$	\$	\$	\$	\$	\$	
<b>Total Out –of –</b> <b>pocket costs</b> (from pg.15)	What I may pay in deductible and copayments.	\$	\$	\$	\$	\$	\$	
Prescription Drug Costs (from pg.16)	What I may pay for prescriptions	\$	\$	\$	\$	\$	\$	
Vision Costs (from pg. 17)	What I may pay for vision services and products.	\$	\$	\$	\$	\$	\$	
Dental Costs (from pg. 18)	What I may pay for dental services	\$	\$	\$	\$	\$	\$	
Total Yearly and M	Total Yearly and Monthly Health Care Costs		Monthly \$	Yearly \$	Monthly \$	Yearly \$	Monthly \$	

Now you can begin to narrow down your choices to make a **Smart Choice** health insurance decision. The next worksheet, **My Monthly Spending Plan,** helps you organize your monthly costs for taxes, savings, living expenses and debt payments. Use your monthly bills, bank statements and credit card statements to estimate your monthly expenses. Try not to guess your expenses. By using accurate figures you'll get a clear picture of your finances and be able to make more reliable financial decisions. Later you can determine how expenses can be adjusted so you can cover your health care costs. The monthly estimates for health care costs can be added to the **My Monthly Spending Plan** worksheet so you can decide which plan you can afford.

#### **Periodic Expenses**

These expenses come up once or twice a year. Fill in the estimated costs under the month they are due. Add your total and divide by 12 to determine your monthly estimate. You will want to set aside the monthly estimate so you can have the money when the periodic expense occurs. January February March April May June

July August September

### **My Smart Choice Health Insurance Decision**

To make a **Smart Choice**, review the information you used to complete the following worksheets: **My Health Insurance Needs**, **My Health Insurance Plan Comparison**, and **My Monthly Spending Plan**. By completing these worksheets you will know what you need and can afford .

Now you can choose the health insurance plan that fits your needs (from pgs. 6 - 9) and your spending plan (from pgs. 21-22).

If there are two plans that meet your needs and fit into your spending plan, look at what they offer. Choose an affordable plan that best meets your current and upcoming health care needs. If there is a plan that doesn't fit into your spending plan but it meets your health care needs now and for the future, review your spending plan to determine how you might adjust some of your expenses or increase your income to cover the health care costs.

By completing these steps you should feel confident that you've made a **Smart Choice** health insurance decision.

# **Congratulations!**

Once you buy a health insurance plan, you will need to understand and use your health insurance benefits. To learn more about becoming a Smart User of health insurance visit <u>http://extension.umd.edu/insure</u>
