Garden Smarter: Creating Your Homegrown National Park (PF)

CALVERT LIBRARY PRINCE FREDERICK
10:00am - 11:30am

Doug Tallamy, entomologist, conservationist, and professor at the University of Delaware, co-founded Homegrown National Park to encourage people to plant natives in the spaces they care for. This presentation will guide you through creating a habitat that life depends on, based on Doug's recommendations and other resources.

☐ Lectures, Panels & Conversations |
Class/Workshop

Saturday March 7, 2026

REGISTERED EVENT

Garden Smarter: Grafting Vegetables (PF)

CALVERT LIBRARY PRINCE FREDERICK
10:00am - 11:30am

Grafting allows gardeners to utilize genetic components of multiple varieties in a single plant. Come learn how to graft fruit plants such as apples, tomatoes, and more, through discussion and hands-on activities.

REGISTERED EVENT

Garden Smarter: Restoring Plants to Historic Gardens (TB)

TWIN BEACHES BRANCH
10:00am - 11:30am

The Patterson House and Gardens at Jefferson Patterson Park and Museum completed a multi-year renovation in 2025. Join the park horticulturalist for a virtual tour of the 64 varieties of plants brought back to two formal gardens designed by pioneering female landscape architects in the 1930's.

Garden Smarter: Bay-Wise Reimagined (TB)

TWIN BEACHES BRANCH
10:00am - 11:30am

Every Marylander lives within a watershed and has a role to play in caring for the land, water, air, wildlife, and each other. Every action we take, every small positive change we make to improve water quality, soil health, and habitat counts in a big way. Learn about the actions you can take in your yard using the newly updated Bay-Wise Living Landscapes Metric.
