What is 4-H?

A chance for young people to participate in practical activities to develop life skills. Activities include cooking, outdoor activities, photography, applied science, technology and more.

Why should you join 4-H?

The 4-H club STEAM Team comprises students ages 5-18. We meet once a week at school, additional meetings can be programmed for special projects. Members will participate in club activities, state, county, and many national opportunities. 4-H focuses on a "learning by doing" philosophy of youth development. 4-H'ers ages 11 to 18 are encouraged to complete record books and with approval, they can develop projects through service learning/special interests under the direction of an adult volunteer. All members learn leadership skills through community service, participate on standing committees, and take volunteer assignments during the club meetings.

How can I join 4-H?

Email the 4-H Club, 4hsteamteam@gmail.com

Are there membership fees?

$10 a year per child
