

\$100 In Two Easy Steps!

Septic Savers

Save Money, Save Your System, Save Our Water.

Join the Howard County Septic Maintenance Reimbursement Program.

What do I have to do?

Have your septic tank pumped by a licensed septic hauler and complete our simple form.

We'll reimburse you \$100 for something you need to do anyway.

Pump again in 3-5 years and we'll give you another reimbursement.

Apply now at www.cleanwaterhoward.com/septicsavers

Regular pumping can help you avoid thousands in expenses from a failed septic system.

Pumping reduces pollution of the ground water and helps

Howard County comply with a federal mandate.

FREE classes are available via the University of Maryland Sea Grant Extension to teach you how (and why) to care for your septic system. RSVP at the link above.
