| 4/22/2018    | Craft       | County 4-H Craft Day- Granulated wax Candle Craft         | I learned that when using granulated wax to make a candle, you must be careful when layering different colors. If shaken or dropped before adding the top packed hot wax, the layers may mix. – 15 points   |
| 6/1/2018     | Vegetables  | Planting my garden at home                                | This year I had a hard time getting my garden planted. The rain never stopped. The garden was mud, making it hard to till. I learned to compromise with applying fertilizer. I placed cow manure directly in the bottom of the whole, rather than tilling in to soil.                             |
| Nov. 6, 2018 | Photography | Howard County Bear 4-H Club February Meeting- Photography | A guest speak came and spoke with us regarding angle, zoom, and lighting techniques when taking photos with a digital camera. We took a picture of the American Flag both inside and outside, up close and far away. I learned the angle is important when sunlight is present in the background. |
