The 2014 Farm Bill is complex. Details of how the bill will be implemented are not expected to be available until early August. The purpose of this workshop is to provide farmers with a better understanding of the new programs to be offered in the new farm bill and how these programs could potentially affect their operations.

The 2014 Farm Bill will bring changes for grain farmers in Maryland. This workshop will also provide grain producers with details about the decisions they will need to make and the tools to do so efficiently.
