Directions

- Record your daily minutes of activity and mile conversions on this Activity Log.
- List the physical activities included on the Equivalents Chart / Calculator that you engage in and number of minutes per day engaged.
- Use the Equivalents Chart/Calculator to convert activity minutes to miles for each activity and record beside the minutes (see Example).
- Total the number of minutes and miles for each day.
- At the end of the week, total the minutes and miles for the week and record in the Week's Total boxes.
