

Not sure of these answers.
Step back and do more research.
Try an internship.
Attend field days and farm visits.

Farming has too many risks for me.

Starting a Farm

What skill sets do I have?
What resources do I have?
What farming enterprises(s) might fit my personal goals?

I can answer all these questions and am ready to explore my farming options

SWOT Analysis

Strengths
Weaknesses
Opportunities
Threats

Enterprise Selection

Livestock
Crop Production
Vegetables
Fruit
Nursery/Horticulture
Grapes
Equine
Value-Added.

I understand farming can be risky business but, I can develop a plan that addresses those risks.

My Business Plan

Product Development
Marketing Plan
Financials
Human Resources

I have a plan and strategies for implementation and evaluation.
