The Maryland Master Gardener Mission is to educate Maryland residents about safe, effective and sustainable horticultural practices that build healthy gardens, landscapes and communities. Our vision is for a healthier world through environmental stewardship.

The Anne Arundel County Master Gardeners is a volunteer organization trained through the University of Maryland. Master Gardener Speakers are available to speak to any group in Anne Arundel County. Speakers are available for a variety of topics during the day or evening and at any time of the year. If you do not see the topic you are interested in, please let us know and we will try to accommodate you. We are always looking for new topics and ideas.

There is no charge for a presentation given within Anne Arundel County. We are a non-profit volunteer group that accepts tax deductible donations to help support our programs.
