AG Happenings

Cost-Share is Available for Manure Transport & Injection

Cost-share funding is available to help transport and inject all types of liquid manure into fields. Injecting liquid manure lowers the potential for nutrient runoff to surface waters and reduces on-farm odors.

There is funding to pay for both spring and fall-planted crops. It may be used for:

- Transporting Manure
- Hiring Custom Operators
- Rent or Lease of Equipment
- Operating Costs for Manure Injection

Cost-share grants to transport dairy and livestock manure pay up to 87.5 % of all eligible costs. Eligible farmers receive up to \$45 an acre in cost-share to inject liquid manure into the soil, based on a maximum application rate of 6,000 gallons per acre. Rates for manure transport are based on the distance between the manure source and the field. (Please note that manure injection may not be possible in some Garrett County soils.)

Applicants must be in good standing with the program and in compliance with Maryland's Nutrient Management regulations.

Spring manure injection and transport must be completed by June 30, 2023.

Claims for payment must be received by the department's Conservation Grants Office by July 31, 2023.

For more information and to apply, please contact our office at 301-501-5886 or sethmetheny1@maryland.gov.

Maryland Department of Agriculture Small Farm Cover Crop Program Announced

Maryland Department of Agriculture's new Small Farm Cover Crop Program is now accepting applications. This new program is for small scale producers who do not qualify for other cover crop programs.

Growers who plant 10 or less acres of cover crops can receive up to \$1500 in reimbursements for cover crops planted after a production crop. Both summer and winter cover crops are eligible.

Cover crops can be planted in fields, raised beds, or high tunnels following the harvest of vegetables, herbs, flowers, sorghum, soybeans, hemp, millet, or tobacco. In order to qualify, farms need to have a minimum of \$1000 in sales annually.

For more information, please go to <https://garrettscd.org/smallfarmcovercrops/>. Applications should be made through the Garrett Soil Conservation District, 1916 Maryland Hwy, Ste C, Mt. Lake Park, MD 21550. 301-501-5886.
