- **Recurve Bow** – Single-pin adjustable sight, clicker, kissers button, and torque compensator are permitted. String peep and mechanical release aid are not permitted.
- **Compound Bow** – Release aids, string peeps, optical sights, and spirit levels are permitted. Overdraws may not place the arrow rest further than 6 cm from the pivot point of the bow. Maximum draw weight is 60 lbs. Compound bows (including Genesis bows) must have a sight.

Lost arrows: Lost arrow search will be limited to 2 minutes. Archers should have adequate arrows to continue to the event after a 2-minute search. Archers will be allowed to search for arrows after conclusion of the event.

Equipment Failure: If a contestant experiences a bow equipment failure while shooting, the match will continue. The contestant **may** be allowed to make up missed shots at the end of shooting, at discretion of the match director.

MATCH EVENTS: Recurve and compound archery are different competitions but will shoot the same events. Even though the governing bodies for the events have slightly different requirements or restrictions, this 4-H match will use one standard for equipment, for all events.
