## “Buffer in a Bag”

This program provides free tree seedlings to Charles County residents with the goal to enhance water quality. It is intended to assist homeowners who have a waterway on or adjacent to their property. When planted, the trees provide a streamside buffer.

A streamside buffer can create habitat for wildlife, reduce peak summer temperatures, and reduce the amount of sediment, fertilizer and toxic materials that enter our waterways. Deep-rooted trees and shrubs can also stabilize streambanks, protecting them from erosion.

## What’s in the bundle?

- ◆ 16 bareroot seedlings, 4 species of each: American Persimmon, Sycamore, Northern Red Oak, and Buttonbush
- ◆ Tree seedlings distribution on April 13, 2024
- ◆ Bundles are limited, so reserve yours now!

For more information, please contact [backyardbufferccmg@gmail.com](mailto:backyardbufferccmg@gmail.com). Bundles may be reserved online at [this link](#)
