There's more to it than just a single machine!

Lots of questions, lots of answers!
Welcome to the business of firewood!

How do you want to proceed?
Some things to consider.

Like this!

Or this!
What is your business model?

Mobile

Stationary
Will you deliver?
Is it seasoned? If so, how?

Stacked to air dry

Dried under cover
How will you move it?
Choosing the right machine!
The field is loaded!

From this

To this
Several companies offer the simplest of processors
Starting at $8,000.00
There are several PTO versions!
A very wide range!

From 6” logs

To 19” logs
Engine drive, self contained.

Also a wide range

Mid size
Wood monsters
Available options
How clean do you need it to be!
How high do you need to stack it?
Some machines do not include a discharge elevator, or have a very short one.
Things to look for at the expo.

- Simplicity of operation.
- SAFETY
- Quality of finished product.
- Serviceability
- Hourly output
- Will it fit my budget?
- What else do I need to make this whole thing work?
Thank you
