(Explanations and examples on the back page)
Project completion means that a 4-H member has done the following:
- Given a project demonstration, talk, or speech about their project
- Exhibited something they have made or raised
- Completed a project record

This is ALL that is required to complete a project. Members are asked to use the official project titles (the ones found on 4-H Online) as much as possible, but self-determined projects are acceptable.

Project work is evaluated on the following criteria:
- Project activities appropriate for member’s age
- Project activities show variety
- Project records are complete
- 4-H’er has participated in learning experiences; e.g. workshops, skill events, etc.
- 4-H’er has received recognition for project work
- 4-H’er has participated in club, county, regional, or state level programs

The University of Maryland, College of Agriculture and Natural Resources programs are open to all and will not discriminate against anyone because of race, age, sex, color, sexual orientation, physical or mental disability, religion, ancestry, or national origin, marital status, genetic information, political affiliation, or gender identity and expression.
