Children’s Programs

Sign up for these $12 sessions on Eventbrite. See links for times.
All programs will have a hands-on project for learning by doing.

Discover Bugs!
2nd and 3rd Grade Children
Talk to specialists about good and bad bugs.
See bugs in action, explore bug homes, and see bugs in our garden.
Children will do a bug craft to take home!

Discover Gardening
2nd-5th grade children
Visit our gardens with our Master Gardeners for inspiration and
gather knowledge for your own garden. Learn about garden design,
different plants and how they grow best. Then, plant one yourself.

Discover Flowers!
4th-5th grade children
Learn about the science of flowers, and flower families. Learn
how flowers help people, and how flowers can send messages!
Make a craft with flowers to take home.
